

**DISCHARGE SUMMARY
DEPARTMENT OF CARDIOLOGY**

HN :  H21805898336 AN :  LCH180530172 DN :  DS21805000053333

Patient Name : MR. SHAHJUR HOSSAIN SHARIF DOA : May 17, 2018 07:38 AM
Father Name : MR. FIROZUR RAHMAN DOD : May 17, 2018 05:05 PM
Mother Name : MRS. SHARIFA AKTER Ward : LCH 5, HIGH CARE NS
Spouse Name : MRS. FATEMA SULTANA Bed : (C5-HC-1)C5-HIGH CARE 1
Age : 55Y
Gender : MALE
Address : 106 CENTRAL ROAD, FLAT-2/703, ESTERN MOFIZ BAG, KALABAGAN, DHAKA, BANGLADESH
Consultant : PROF. DR. BAREN CHAKRABORTY MBBS, MCPS, FCPS(MED), FACA, FCCP, FRCP, FACC (USA)

Diagnosis :

**Effort Angina (CCS I)
Triple vessel disease
Hypothyroidism
S/P CAG (2007)**

Risk Factors :

Hypertension (+)
Diabetes mellitus (+)
Dyslipidaemia (+)
Smoking (-)

Procedure Performed :

Coronary angiogram was done on 17.05.2018 (Transradial Right)

Resume of History :

MR. SHAHJUR HOSSAIN SHARIF, 55 years old gentleman was admitted for coronary angiogram. He has been suffering from chest pain with shortness of breath on and off. He is hypertensive, diabetic and is on regular medications. He underwent CAG in 2007 which revealed 50% stenosis in mid LAD. He is known case of Hypothyroidism. He had no previous history of CVD, CKD, or Bronchial asthma

Course in Hospital :

After admission coronary angiogram was done on 17.05.2018 which revealed coronary artery disease - triple vessel disease and recommended for revascularization. The procedure was tolerated well. There was no complication during and after the procedure. His further hospital stay was uneventful. Today he is being discharged in a stable haemodynamic condition with the following medications and advice. On discharge his Pulse- 98 bpm, BP -120/80 mm of Hg, Heart sounds- S1 & S2 normal, Lungs base - clear, Puncture site - normal.
